(Aisha/Azli)

**Stop drowning in static spreadsheets.** Start delivering dynamic dashboards that drive real decisions. This intensive 2-day programme equips you with practical Power BI skills to connect, clean, transform, model and visualise data – helping you automate reporting, uncover patterns faster and **accelerate your professional value.**

**Work faster. Analyse smarter. Present with impact. – 100% HRDF Claimable.**

## Who Should Attend

Excel users, executives, analysts and engineers who want to turn multiple data sources into meaningful business insight, automate reporting workflows and present data more clearly to management and stakeholders.

## Why Sign Up

Power BI capability is a career differentiator. Go beyond Excel, integrate data from multiple sources, build interactive dashboards and turn information into action – becoming more valuable to leaders and more credible with stakeholders.

## What You Will Learn

- 1

**Data Connection & Transformation**  
Connect to databases, shape and clean data, manage queries and merge sources. Structure raw data into analysis-ready models with confidence.
- 2

**Data Modelling**  
Build relationships, create calculated columns and measures, and prepare robust data models that support reliable reporting and stronger business insight.
- 3

**Data Visualisation**  
Create impactful visuals – charts, maps, KPIs, matrices and slicers. Apply formatting, layout and hierarchy techniques for maximum clarity.
- 4

**Reporting & Dashboarding**  
Build interactive dashboards using Power BI Desktop and direct connectivity concepts. Deliver clear, presentation-ready analytics to management.
- 5

**Insight & Decision Support**  
Move from static reports to dynamic decision tools. Automate workflows, uncover patterns quickly and support better business decisions with confidence.

**Practical & Hands-On**  
Real-world labs and use cases covering data from multiple sources, applied to everyday reporting scenarios.

**Highly Interactive**  
Mini-lectures combined with hands-on labs so participants build capability through doing, not just listening.

**Immediate Career Value**  
Use Power BI skills right away to speed up reporting, strengthen insight quality and support more credible business decisions.

Leave with the practical capability to build interactive dashboards, model data from multiple sources, generate faster insights and present information more persuasively – standing out as a more analytical, credible and data-driven professional.

Ready to upgrade your reporting, analytics and dashboarding capability in just 2 days? Enroll your team in this high-impact programme and move beyond static spreadsheets into dynamic, decision-ready dashboards.

**Inhouse and public run options available. Contact us for pricing and scheduling.**

**Pre-register to secure your seat today.**
